The Lede Program

An intensive, remote-friendly summer program from Columbia's Graduate School of Journalism designed to equip journalists and storytellers of all kinds with the skills needed to perform in-depth investigations

The Lede Program

Columbia Journalism School's Lede Program is a 10-week intensive on coding, data analysis, and visual storytelling. For 2025, the course will be once again operate with **in-person and remote options**.

No Prerequisites

We start from zero, **with no prior experience in data or coding necessary** – You'll learn it all along the way. If you can turn on your computer, you're ready to go!

10 weeks!

Not just for journalists

Pulling insights from data **isn't just for journalists** — our tools and skills are equally valuable to social scientists, policymakers, and academics of all stripes.

Real-World Skills

Tired of programming tutorials that are all about complex ways of putting a dozen numbers in order? We teach the **practical, real-world skills** in data analysis and visualization and sidestep the theory.

Have questions about Lede?

12 months!

Apply **Search**

M.S. Data Journalism

Journalism in the 21st century involves finding, collecting and analyzing data for storytelling, presentation and investigative reporting. The journalism school offers a Master of Science in Data Journalism for students interested in advanced skills.

APPLY

WHO SHOULD APPLY **CURRICULUM** **CLASSES**

The M.S. in Data Journalism provides the hands-on training needed to tell deeply reported data-driven stories in the public interest.

The current era needs journalists who can extract stories and meaning from data and massive information flows. This program trains students to be confident about using data in furtherance of the journalistic mission.

Applicants do not need to have experience with data or computation to enroll in this three-semester program. All students are required to attend foundational courses that allow those with no data experience to hone their skills in data acquisition, extraction and analysis.

ASSEMBLY BILL

Introduced by
(Coauthors: Assembly Member Buffy Wicks, Senator Scott Wiener)
(Coauthors: Senators Mike McGuire, Holly Schabarum, and Assembly Member Buffy Wicks)

F

An act to add Title 23 (commencing with Section 1700.1) to the Civil Code, relating to consumer protection.

LEGISLATIVE HISTORY

AB 886, as amended, was introduced by Assembly Member Buffy Wicks on June 26, 2024. Existing law generally requires, on a semiannual basis and as specified, a social media company to submit to the Attorney General a terms of service report that includes, among other things, the current version of the terms of service of the social media platform. This bill, the California Journalism Preservation Act, would require a covered platform, as defined, to either pay at least \$____ annually to compensate digital journalism providers, as defined, for accessing the

A screenshot of a web browser displaying an article from The Washington Post. The title of the article is "Apple says its App Store is 'a safe and trusted place.' We found 1,500 reports of unwanted sexual behavior on six apps, some targeting minors." Below the title, a subtitle reads "The prevalence of unwanted sexual content raises questions about whether Apple can continue to offer a protective cocoon to its customers as its platform grows". The author's name is Reed Albergotti and Al Johri, and the date is November 22, 2019 at 7:00 a.m. EST. A sidebar on the left features a dark background with white text that reads "all this ap", "hate and", "Nothing", and "[had one]".

Apple says its App Store is 'a safe and trusted place.' We found 1,500 reports of unwanted sexual behavior on six apps, some targeting minors.

The prevalence of unwanted sexual content raises questions about whether Apple can continue to offer a protective cocoon to its customers as its platform grows

By Reed Albergotti and Al Johri
November 22, 2019 at 7:00 a.m. EST

Using a machine learning algorithm to identify App Store reviews containing reports of unwanted sexual content, racism and bullying, The Post sifted through more than 130,000 reviews of six random chat apps, all but one of which were ranked in the top 100 for social networking by Apple earlier this month. The Post manually inspected the more than 1,500 reviews that made mention of uncomfortable sexual situations.

Elections européennes : Emmanuel Macron dénonce « l'hypocrisie » du Rassemblement national

Le chef de l'Etat a déploré, mercredi depuis Bruxelles, que les « peurs profitent aux réponses les plus simplistes » dans la campagne pour le scrutin du 9 juin, fustigeant ceux qui dénoncent l'Union européenne tout en engrangeant les « dividendes silencieux ».

- En direct, la situation politique en France : Elisabeth Borne siégera au sein du groupe Renaissance, son président n'est toujours pas élu
- L'avertissement de Gérard Larcher à Emmanuel Macron : «On ne joue pas avec la France»

Interrogé en marge de son déplacement à Bruxelles sur la campagne des élections européennes, Emmanuel Macron a ciblé, sans le nommer, le Rassemblement national (RN) dont la liste conduite par Jordan Bardella caracole en tête des sondages.

«*Je pense qu'il y a beaucoup de peurs, d'inquiétudes dans le moment que nous vivons et que ces colères profitent toujours aux réponses les plus simplistes*», a déclaré le chef de l'Etat français lors de son arrivée, mercredi 17 avril, dans la capitale belge avant la tenue d'un sommet européen, au cours d'un bref échange avec la presse aux côtés de la tête de liste de son camp aux européennes, Valérie Heyer. «*Il y a aujourd'hui une espèce d'hypocrisie du débat et j'espère qu'en rentrant dans les prochaines semaines dans celui-ci, cette hypocrisie sera levée*», a ajouté M. Macron, visant en creux le RN.

Il s'agissait de la première apparition publique du chef de l'Etat et de Mme Heyer depuis le début de la campagne, avant qu'ils n'assistent ensemble à une réunion du groupe Renew Europe.

Lire aussi | [Elections européennes 2024 : le calendrier du scrutin](#)

La candidate du camp présidentiel peine pour l'instant à imprimer sa marque dans la campagne. «*On s'organise, on a la bonne candidate (...) On a surtout les bonnes idées, celles qui se sont mises en place en Europe ces dernières années*», a lancé M. Macron, interpellé par un journaliste.

Arizona police procedure database hack

BY: JEROD MACDONALD-EVOY - FEBRUARY 13, 2025 11:22 AM

Hackers who broke into the systems of a Texas-based company that develops internal policies, manuals and other training material for law enforcement have published thousands of finished and draft procedure manuals for police departments across the country, including many in Arizona.

Lexipol boasts that it works with thousands of police departments and first responders across the country to help them create policy and procedure manuals that are used to guide those agencies on a myriad of topics.

The Arizona Mirror examined the over 8,500 files leaked by a hacking group calling itself “the puppygirl hacker polycule” and published by the nonprofit [DDoSecrets](#) that archives leaked and hacked material.

But: semantic search has no “right” answers.

If I'm searching for “**turkey**”, does that match Istanbul? Syria? Lokum? Eric Adams? NYC? Eagle? Poultry? Farmhouse? It's really just a **rank**.

Divergent Association Task: F x

datcreativity.com

Home Take the test About FAQ Team

The Divergent Association Task measures verbal creativity in under 4 minutes

It involves thinking of 10 unrelated words. People who are more creative tend to think of words with greater “distances” between them, showing more divergent thinking.

Take the test (2 to 4 minutes)

We recommend that you [take the test before you learn more about it](#). You can also read a [CNN article](#) on the task or read our [open-access manuscript](#) in *Proceedings of the National Academy of Sciences*.

CNN POPULAR SCIENCE FAST COMPANY **PNAS**

ChatGPT...

ChatGPT can make mistakes. Consider checking important information.

The image shows a dual-monitor setup. The left monitor displays the OpenAI Whisper landing page, featuring a large "Introducing Whisper" title, a date of September 21, 2022, and a paragraph about the model's performance. It includes links to "Read paper", "View code", and "View model card". The background is a blurred image of a landscape. The right monitor displays the Hugging Face model library, specifically the "Models" section. It lists several Whisper models, all categorized as "Automatic Speech Recognition" and updated on February 29. The models are: "openai/whisper-large-v3" (2.01M parameters, 2.41k stars), "openai/whisper-large-v2" (306k parameters, 1.56k stars), "openai/whisper-tiny" (216k parameters, 180 stars), "openai/whisper-base" (359k parameters, 159 stars), "openai/whisper-small" (368k parameters, 152 stars), "openai/whisper-medium" (188k parameters, 174 stars), and "openai/whisper-tiny.en" (170k parameters, 77 stars).

potential? Cause it feels to me like every generation learns all the things the previous generation learned. Yeah, that's probably true. Trade-offs, I guess, a lack of self-awareness, competing priorities. I think all these things play a factor. Not being clear about what you're optimizing for. You know, it's not that people, no one's out there trying to make a poor decision. You know, nobody is trying to waste their time or be ineffective. I think it's just that we often, Life is dynamic and what we were previously optimizing for may not be what we should be optimizing for in the moment. Or maybe we've entered a new season of life and we're slow on the uptake. We kind of are still inheriting the inertia or the old habits that we've been following and we haven't upgraded or improved our strategies yet. Maybe what we really want is a little bit different than what is currently coded or what we would be praised for or what the people around us want. And so we're forced into this

★★★★★ 1268 ratings

Quickly and easily transcribe audio files into text with OpenAI's state-of-the-art transcription technology Whisper. Whether you're recording a meeting, lecture, or other important audio, MacWhisper quickly and accurately transcribes your audio files into text.

Features

- Easily record and transcribe audio files on your Mac
- Just drag and drop audio files to get a high quality transcription
- Supported formats: mp3, wav, m4a, ogg, opus, mov and mp4 videos.
- Adjust whisper settings (beam search / greedy, beam size etc)
- Supports Tiny, Base and Small transcription qualities (and you can compare the transcription quality between all quality levels)

Available models and languages

There are five model sizes, four with English-only versions, offering speed and accuracy tradeoffs. Below are the names of the available models and their approximate memory requirements and inference speed relative to the large model; actual speed may vary depending on many factors including the available hardware.

Size	Parameters	English-only model	Multilingual model	Required VRAM	Relative speed
tiny	39 M	tiny.en	tiny	~1 GB	~32x
base	74 M	base.en	base	~1 GB	~16x
small	244 M	small.en	small	~2 GB	~6x
medium	769 M	medium.en	medium	~5 GB	~2x
large	1550 M	N/A	large	~10 GB	1x

The .en models for English-only applications tend to perform better, especially for the tiny.en and base.en models. We observed that the difference becomes less significant for the small.en and medium.en models.

Whisper's performance varies widely depending on the language. The figure below shows a performance breakdown of large-v3 and large-v2 models by language, using WERs (word error rates) or CER (character error rates, shown in *italic*) evaluated on the Common Voice 15 and Fleurs datasets. Additional WER/CER metrics corresponding to the other models and datasets can be found in Appendix D.1, D.2, and D.4 of [the paper](#), as well as the BLEU (Bilingual Evaluation Understudy) scores for translation in Appendix D.3.

recreation or city facility to be determined. Still working that part out. We're trying to make sure we can accommodate all of you as well as everyone that's a member of the board that you appoint. It's important, I think, for all of our appointees to understand more about what our vision is as a city government and how they play a role in that. So certainly want to invite neighbors, friends, all the residents out on January the 11th on Tuesday and... that the day after the national championship game? Good in choosing that. But we will keep it concise in terms of what we do. We will have all of our cabinet directors there to ask questions, the tough questions, if it's around recycling, around community centers, if it's around trash, pick up a town hall. That would be an excellent place for them who have come to town halls to follow that up with us and let us know where they don't see enough change and for us to be able to answer those questions well on the spot. All of our cabinet directors will be there to make sure that we can answer some of those. We may not be able to make it out. But we do want to encourage public to hear some of the things that, again, we talk about among the some of the updates. There is no financial update into that at the last meeting. We will come back in the next meeting and we certainly want to invite people out to the rest of the 12 events tonight at the amphitheater, I'm told, from six to eight being shown there. So you want to post that to your social media after we get out of this meeting. If I can ultimately get there. But we also want to invite you to the Camellia Bowl. Saturday, Christmas day to the 2021 Tax Act Camellia Bowl. We and to support that. It is the only nationally televised college football game. And last year that brought in about three million plus viewers to see it. We've had some of our councilmen that have done some commercials advocating to have those councilmen's commercials shown. Now I don't know if Ed Grimes or C.C. Calhoun are going to win that he did in that commercial. But we want it to be shown because going to be tuned in to the Camellia Bowl. And I think it was just a good idea.

Montgomery City Coun.m4a

Transcribing... (02:41) Cancel Copy Export Search in transcript

And we wanted to make sure that we didn't rush this process.

12:51 - 12:57

I feel like you know Chief Harris has been doing a very good job and we talk several times a week.

12:57 - 13:05

And part of what I shared with her is that we're going to cast a wide net and you're going to be included in that net should you be interested.

13:05 - 13:14

And she's interested.

13:14 - 13:15

And so she's included as part of that.

13:15 - 13:17

But with anything we want to make sure that we get the best leader.

13:17 - 13:21

And that leader may be within our police department right now.

13:21 - 13:24

It may be someone that's external.

13:24 - 13:27

But we want to make sure that all of you on the council are aware of where we are in this.

13:27 - 13:33

00:00 / 01:13:50 1x

Prove that finish. Mr. President, will you sit down? I'll slide your hand. Six, two and seven, this time. Okay. Mr. Mayor, you're up. Good evening. Good evening. I want to thank everybody first. I want to thank everybody for all the work that we've been doing this holiday season. I think so many good things have been taking place in this community. Many people who have encountered experience, Christmas and holiday events. And I've just been trying to open all the things that have been doing. I think that has been great for our city, for our community. So many of our nonprofit leaders have stepped up to the plate to build the gap and to make sure that people have a happy Christmas and a happy holiday season. And that's something I think that can be involved in the business of what we do with daily governance every day. But you can see that from this community, from all the faith leaders. And just for so many people really in the Christmas period, it's not just this time that you would see it throughout the city year round. But it is just a great positive to take a little, I guess, in the last few weeks. So I wanted to start just by thanking everybody for helping make the country, the city that it is, and being a positive contributor to someone else beyond themselves. And that really is all we can say. I do also want to thank all the counselors who were able to make the Christmas on the river event a couple of weeks ago. the women who came out with their families there and received positive feedback from people being able to access the riverfront with all the Christmas decorations. And they really enjoyed it, even the snowmachines. So it's been interesting and fun, I think, change to try to do something a little different with our community. And so while we start on a little bit of Christmas, I must give an update probably where things stand as it relates to COVID. A few months ago, I didn't think that I would give any updates. It's really, really, to be honest with all of us to serve them, to divide up police information into the community, to ask that mayors and leaders across the country, just to point some awareness to what we're seeing as it relates to the rise in cases around the country is certainly an encounter. out of the hotel is confirmed in the first case of the home promenade in this past week. And while we still have a lot to learn, we

Use Again

Here are the key points from the transcript:

- 1. Community Acknowledgment:** The Mayor expresses gratitude to community members and nonprofit leaders for their contributions during the holiday season, emphasizing the positive impact on the city.
- 2. COVID-19 Update:** The Mayor provides an update on COVID-19, noting a rise in cases and encouraging vaccinations, booster shots, and mask-wearing to protect the community.
- 3. Warming Center Announcement:** A warming center is opened due to cold temperatures, providing shelter for those in need.
- 4. Community Hero Recognition:** Cassanta Sanders is recognized as a community hero for her efforts in revitalizing the King Hill neighborhood and advocating for local history, including the expungement of Claudette Colvin's record.
- 5. Police Chief Search Update:** The Mayor discusses the ongoing search for a new police chief, highlighting the thorough process and the importance of community input in the selection.
- 6. Violence Prevention Initiative:** Introduction of Keith Moore as the new director of the Office of Violence Prevention, aimed at addressing the root causes of crime in collaboration with community leaders.
- 7. Town Hall Meeting Announcement:** A town hall meeting is scheduled.

Alors, bonsoir et bienvenue à la séance du conseil de ville de Serpentville du 3 mars. Ça fait plaisir de vous voir, de ne pas vous voir, mais on sait qu'on est bien regardé à la télé, grâce à la télé et sur YouTube. Ça fait que bienvenue à tous. Ce soir, vous avez eu l'ordre du jour entre les mains. Est-ce qu'il y a des choses à rajouter? Vous devriez rajouter des points? C'est conforme? Oui, je suis conforme. On va prendre un proposeur. Oui. Richard? Oui. Appuyé de tout le monde? Oui. Merci. Au point 2, 3, vous avez eu l'adoption du procès verbal du 3 février. Vous avez eu le document entre les mains. Oui. Est-ce que tout vous semble conforme à ce qui a été discuté? Oui. Oui. Proposé par Francine? Oui. Unanime? Oui. Merci. On s'est rendu à la période de questions, étant donné qu'il n'y a personne dans le public. Et puis, Alexandra, tu n'as pas eu de questions par e-mail et tout ça? Merci. Au point 5, administration et règlement. 5 points en transfert de surplus réservé aux surplus accumulés non affectés. Alexandra, vous avez laissé nous donner quelques petites explications? Oui. Dans le fond, c'est dans la comptabilité de la municipalité. Il y a un montant qui est... un montant de 79 087,20 \$ qui est réservé, un surplus réservé affecté Recyc-Québec. J'ai validé avec le comptable. C'est un montant qui est là depuis 2014-2015. Ça fait que j'ai vérifié avec le comptable. On n'a pas de note de pourquoi le montant était réservé. Ça fait que ce qu'on vous suggère, c'est de remettre le montant en surplus non affecté. Puis, si jamais vous en avez besoin, vous pourrez aller le rechercher là. Mais on ne trouve pas de raison pourquoi le montant doit être réservé. Considérant aussi que la compétence du recyclage a été donnée à la MRC, la municipalité n'aura plus de factures à payer, plus de dépenses. Il reste dans le fond un remboursement Recyc-Québec à recevoir cette année pour l'année 2024. Puis, sinon, le dossier du recyclage va être clos ici. Ça fait que c'est ça. Ça fait qu'on vous suggère juste, parce qu'on ne sait pas pourquoi il est là, là. Ça fait qu'on vous suggère juste de le remettre dans le surplus accumulé non affecté. Si les besoins se font sentir, on ira le chercher. C'est ça. Je

Identify and highlight the key points in this transcript, in English

Here are the key points from the transcript of the city council meeting in Serpentville on March 3rd:

1. Welcome and Introduction: The meeting begins with a welcome to attendees, acknowledging that the session is being broadcasted on television and YouTube.

2. Agenda Approval: The council discusses the agenda and confirms that there are no additional points to add. The minutes from the previous meeting on February 3rd are adopted unanimously.

3. Public Questions: There are no questions from the public, and the council confirms that no emails have been received regarding questions.

4. Financial Matters:

- **Surplus Transfer:** A surplus of \$79,087.20, reserved since 2014-2015 for Recyc-Québec, is proposed to be transferred to the unallocated surplus as there is no clear reason for its reservation.

- **Employee Benefits:** Changes to the collective employee benefits plan are discussed, with a transition from Fiducie-Desjardins to Desjardins Assurance or a new provider. A decision is needed before Friday to proceed.

5. Property Disposition: The council discusses the sale of a part of the structure at 223 Main Street, with details on dimensions and conditions for the sale.
